

Stream Setup on Youtube

Your account must be verified via email and you must activate live streaming. You do that by following step 1 and 2, pressing accept on the popup box, and then waiting 24 hours. Make sure you take care of that ASAP.

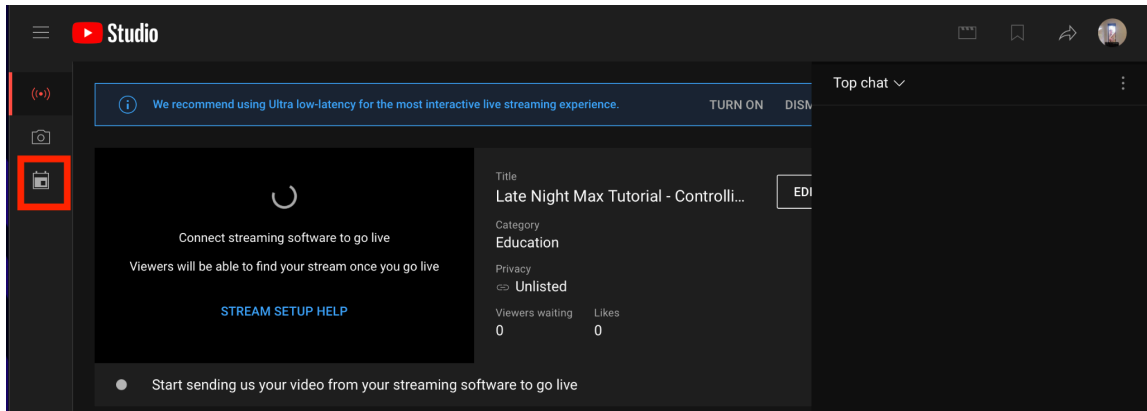

1. Log in Youtube
2. On your homepage, click the camera in the upper righthand corner, click live stream.

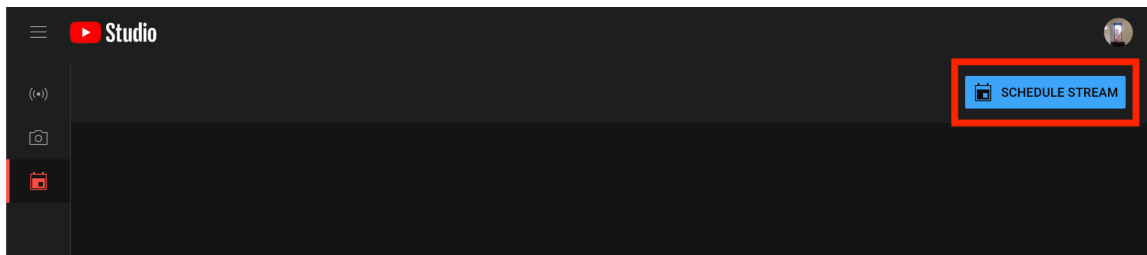

3. A menu will appear. Select “Go Live”

4. You will be taken to Youtube Studio. On the menu on the left side of the screen. Select the bottom item which is “Schedule later”

5. Entering that tab, you will be presented with your upcoming streams. If you have none scheduled, you will only see the “Schedule Stream” button. Click it.

6. This will open the “Create Stream” Window. On the first page, “Details” make sure to set the pages to the following:
 - a. Add a title and description and set the category.
 - b. Under “How do you want to go live?” select “streaming software”
 - c. Feel free to upload a thumbnail
 - d. Select “No, it’s not made for kids”
 - e. When done click “Next” on the bottom right.

8:00 PM

9. Finally you will be taken to your stream proper. In this page there are some settings to tweak and some information you will need to send to me.
 - a. First make sure Auto-start and Auto-stop are enabled.
 - b. Copy the code under “Stream Key” (you can do so by pressing the “Copy” button) and sending that code to me.

10. Finally, press the arrow button in the upper right hand corner and the share menu will appear. Copy the link to the stream and then send that to me.
